Fundraise

Another way your organization can help during May Mental Health Month is to create a unique fundraising page for your organization to invite your colleagues, friends, or clients to contribute to your fundraiser.

By fundraising for El Futuro, you will provide a way for your clients and employees to give back and get involved in the community – which feels great! Other benefits for your organization include opportunities to:

- Connect with neighbors and community members
- Participate in El Futuro's events and initiatives
- Strengthen your corporate responsibility programs
- Publicize and spread the word about your organization
- Foster a culture of trust and solidarity among employees

To set-up your organization's unique fundraising page, [just click on this link](#) (or go to the QR code) and click on **"Start Fundraising."** Once you have set up your fundraiser, it is time to start Promoting!
